

## National Asthma and COPD Audit Programme (NACAP) Quality Improvement Priorities

COPD
1. Ensure that all people admitted with an AECOPD and require NIV, receive it within 120 minutes of arrival at hospital.
2. Ensure that a spirometry result is available for all people admitted to hospital with an AECOPD.
3. Record smoking status for all people admitted to hospital with an AECOPD and offer them a referral to behavioural change intervention and/or prescribe a stop smoking drug.

Log in at [NACAP.org.uk](https://nacap.org.uk) to access the run charts which will show your service's real time performance in the above priority areas.
