

Have you been admitted to hospital for **Chronic Obstructive Pulmonary Disease (COPD)**?

This hospital is involved in a national project to help make the care of patients with COPD better.

Since **1 February 2017**, we have collected information about people admitted to this hospital with a COPD flare-up. This includes confidential information.

The project is called the **National Asthma and Chronic Obstructive Pulmonary Disease (COPD) Audit Programme (NACAP)**.

This information will be used to help improve COPD care for patients.

For more information about the project or how to opt-out, please ask a member of the hospital team for an information leaflet.
